

Shop Repair Service

CALL (732) 469-4540

PSI Process is your single-source repair service provider for pumps, controls, grinders, and your entire wastewater system.

Your Clear Choice for Expert Asset Repair

- ✓ Keep your pumps and equipment compliant with manufacturer's warranty.
- ✓ Save on energy costs with your entire system operating at peak efficiency.
- ✓ Ensure your equipment is always repaired using OEM parts.
- ✓ Realize measurable cost benefits and extend service life.
- ✓ Refurbish to meet original specifications or upgrade to the latest technology.
- ✓ Factory-trained technicians run workshop functional tests on all repaired equipment.

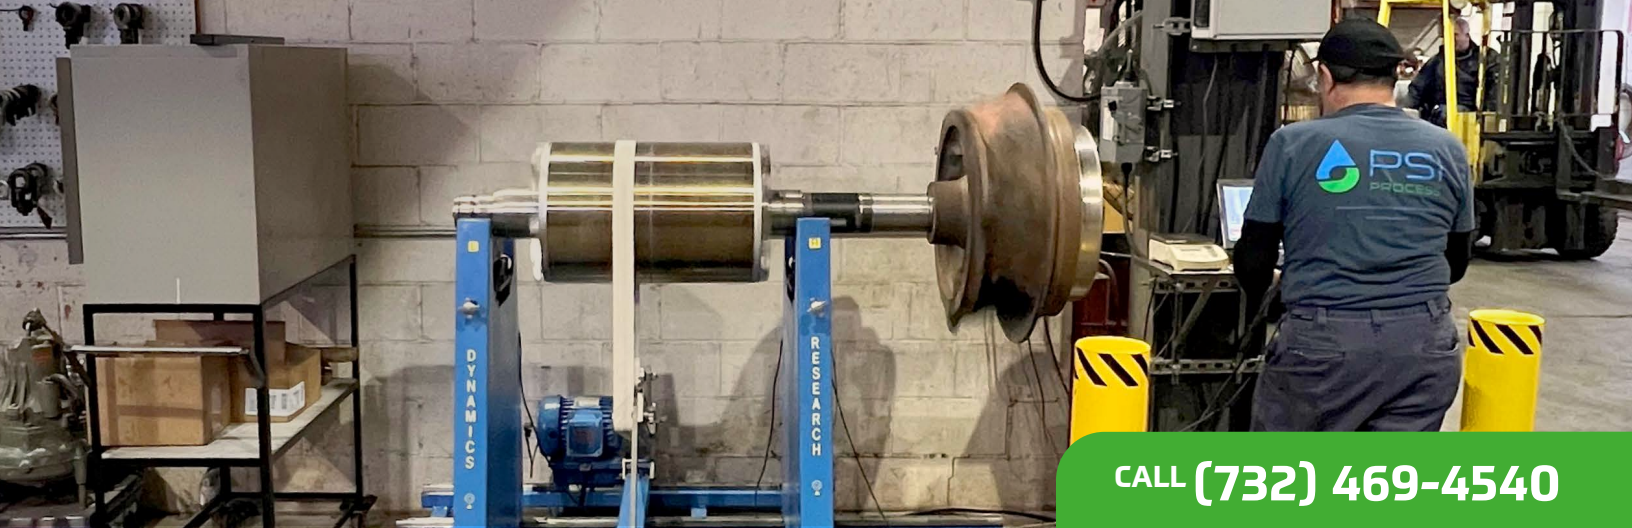

24/7/365 Emergency Service

PSI provides a comprehensive portfolio of services to keep your pumps and related equipment running at their best. Our shop repairs are backed by factory-certified technicians with knowledge and experience in water and wastewater treatment equipment repairs. We're ready to provide the correct repairs or new equipment to meet your water and wastewater system requirements.
