Warehouse Yard Worker

We are a 100% employee-owned company offering excellent compensation and benefits.

We look for candidates with ambition and desire to move up over time. The driving responsibilities are delivering and picking up equipment and accessories. The area of operation includes New Jersey, Metropolitan New York and Long Island, and Eastern Pennsylvania. When not on the road, the employee will assist mechanics, maintain the shop, warehouse and vehicles, and make-up and test hose that is a strenuous activity.

The Driver, like all our employees, does not have a limited job description but is expected to do the work required to meet our customer's needs including working overtime.

A rotating group of service employees carry cell phones and stand by to work in order that we may give our customer's 24-hour service. These employees are compensated for this and all drivers, mechanics and technicians take turns being on standby for one-week period at a time.

Essential job requirements include:

- A valid driver's license in your state of residency and a clean driving record
- Makeup, testing and rollup of hose.
- Assist customers and truckers load and unload heavy equipment.
- Some driving of company vehicles.
- Accurate completion of paperwork so that it is filled out in a way that the customer and we can understand.

After 90 days you'll have access to benefits that include:

- Major medical, hospitalization, and prescription insurance plans
- Dental, life, and long-term disability insurance
- Uniforms
- Annual bonus

After 1000 hours of service, you will be eligible for our **Employee Stock Ownership Plan (ESOP)**. Under this plan, the employees of Pumping Services, Inc., receive shares of stock in the company and will therefore participate in the long-term success of their efforts.

If you receive a job offer, you'll need to have a pre-employment physical at our expense. The exam will include a drug test and respirator fitness exam. You'll need to be clean shaven to take the respiratory fitness test.
